### **About the Madera General Plan Update**

The City of Madera began the General Plan Update on November 26, 2007 with its first Public Advisory Committee meeting. This update, the first comprehensive review of the General Plan in more than 15 years, will address future growth and incorporate the concerns and desires expressed by the community in the Vision 2025 Plan.

Because the General Plan is a reflection of the community's shared vision for the future, public involvement will be important. Persons providing their input are helping the City decide how to plan the future of Madera.

Future public meetings and workshops which will take place over the next two years in various locations throughout the City will address a broad range of topics, including sustainability, land use, circulation, and community design. A complete listing of future meetings and topics is available at [www.maderageneralplan.com](http://www.maderageneralplan.com)
